

## **HUNGAROCOAT 2024**

XIII. International Exhibition and Conference on Paint Industry  
**Budapest, 26-27 November, 2024.**

Dear Partners, exhibitors, conference participants, and visitors,

The Hungarian Chemical Society, with the professional cooperation of Festékipari Kutató Kft., is organizing its international event dealing with the paint industry and surface protection this year as well in Budapest, in the imposing central hall of ELTE, for the 13th time.

The **HUNGAROCOAT 2024** exhibition offers the opportunity for widespread introduction and meeting for producers and suppliers of raw materials, equipment, and testing instruments for the paint industry, moreover, for institutions engaged in research and development, consultancy, technology planning, and quality assurance.

The HUNGAROCOAT 2024 conference will be held parallel to the exhibition. According to our plan, the presentations and the exhibition will address the latest development results of industrial paints and surface protection, practical paint application issues, new raw materials, progress in production processes, and new formulation solutions.

More details about the product range and conference program will be available soon on our website and in the leaflet issued for the event.

We recommend that you enter the date of the HUNGAROCOAT 2022 event in your calendar now!

Yours faithfully,

Dr. János Zoltán Szabó  
Magyar Kémikusok Egyesülete

Lívia Molnár-Nagy & János Bognár  
Festékipari Kutató Kft.
